OVER IN THE EAST

LEAGUE FOCUS

Back over in the east this week as we focus on the U13 East Division, where there are nine very diverse teams looking for the top two slots. But have these two slots already been decided?

Looking at current second place Redditch Rookies, Coach Bessent seems to be in a secure position, only losing their two games to Coventry Elite. Have Redditch done enough to secure their spot? With they defeat their remaining opponents to keep it that way?

Coming close to Redditch Rookies and Coventry Elite are third position City of Birmingham Rockets, who have the possibility of making play-offs with their current average of 60.25 baskets per game.

This league has been a mixture of results, coming from all the nine teams, some being a heavy win or extreme loss, to some very close and entertaining games. Don't forget to check out all the results and the league standings on the YBL website.

YBL ANNOUNCEMENT ON YOUTUBE

Coach Bradfield Interview

Kayleigh was asked how she and her team have come to be on an impressive winning streak and were they doing anything in particular to remain unbeaten?

Kayleigh explained that her players train hard and always play as a team. They have developed well and as a result become very strong players.

We wanted to know what makes you and your team work so well together?

Kayleigh said the kids on her team have actually known each other for a few years now, but this is their first season playing together as a team, so knowing each other has really helped them to get together, have fun and work hard at training sessions. Kayleigh is so proud of this team and not only as a coach as her two sons also play on the team.

We asked Kayleigh what was going to be her focus for the rest of the season?

Kayleigh is focussing on the continued development of her players as a team and as individuals. She hopes to continue this current unbeaten streak and finish top of the U13 East League which would be a tremendous achievement in their first season. However, Kayleigh does not put pressure on the team to win, Just to play well and improve.

When her team are ahead she gives them objectives to meet to which develops the team and the players as individuals, for instance; the shooting guards cannot score unless it's a 3 point shot or they can only assist another player to score.

Kayleigh set up Coventry Elite last year and is quickly getting a good club reputation. She is anticipating that the U13's will progress to U14 NBL next season and currently what is happening with this team is a dream come true for her.

Kayleigh is enthusiastic about Basketball and believes that there is a place for everyone within the sport.
