3	7/7	52.21	50/162
FOR	AGAINST	DIFFERENCE	30.86%
731	707	+24	

Coach Hew Hopkins

You're currently in 5th place but have really showed a lot of improvement this year. What have you been doing?

We work really hard in training. I have a great mixture of abilities with my players and when it comes to training we have to vary things. We always start with the basics but allow a lot of differentiation so that each player will benefit.

You can still make second place with the remaining games left of the season. What are your thoughts on this and have you told your team.

I have made the team aware of the situation but that's where it ends. There is no pressure on them and they just need to continue to focus on each game they play. We have two tough games coming up and we need to remember what we have been practicing on in training. We go in to every game wanting to win and leaving it all on the court.

WM REGION RECEIVE SEVERAL BE AWARDS

The YBL would like to take a moment and congratulate several people from around the West Midlands, with some being involved within the YBL, that Basketball England has praised by giving them an award for their achievements this season.

Congratulations to all those who have received awards from BE, however a special mention to these few;

West Brom Basketball Club for receiving the 'Community Club of the Year' award; "We don't do this to produce professional basketball players. We do it to change lives and communities for the better. 'For the community, by the community'." [source: Twitter].

Will Brain from Worcester Wolves for 'Young Volunteer of the Year'.

Steve Mroso from Team Birmingham for 'Media/Photographer of the Year'

It takes dedication and personal commitment to continue the hard and excellent work these people do. Their hard work pays off and it's nice to see them recognised.
